HEAD

Before uploading please ensure your designs meet the [Artwork Guidelines.pdf](#)  
Incorrectly prepared artwork may cause delays and/or incur additional charges.

PLEASE NOTE:

All artwork MUST extend 3mm past the cut line to the bleed line (pink dotted line).

All text MUST be converted to outlines to avoid font issues.

WE RECOMMEND:

Minimum text size should be no less than 6pt.

For best results we recommend that background designs span across adjacent panels. Alternatively when using separate panel designs ensure graphics meet exactly on the fold lines with no gaps.
